

**BHASKARACHARYA NATIONAL INSTITUTE FOR SPACE
APPLICATIONS AND GEO-INFORMATICS**

WEEKLY PROGRESS REPORT (19/02/2026 – 25/02/2026)

WEEK 8

PROJECT NAME	Monitoring and change detection system using OSINT
---------------------	---

PROJECT DESCRIPTION :

**CREATING OSINT TOOL FOR MONITORING AND
CHANGE DETECTION SYSTEM BY MONITORING
PUBLICLY AVAILABLE INFORMATION.**

GROUP MEMBER :

Harshil Vaniya, Shalomo Agarwarkar, Vrushank Thakkar

GROUP ID :

2026G195

GROUP GUIDE :

CHASIYA KRUTIKA

GROUP COORDINATOR :

SIDHDHARTH PATEL

COLLEGE GUIDE NAME :

BHUMIKA DOSHI

COLLEGE GUIDE No. :

9016888925

COLLEGE GUIDE EMAIL. :

BHUMIKASDOSHI@GMAIL.COM

COLLEGE NAME :

**DEPT. OF BIOCHEMISTRY AND FORENSICS SCIENCE, GUJARAT
UNIVERSITY**

19/02/2026	• Tested cross-platform compatibility of new features (Vrushank Thakkar) • Integrated updated report code and added attack surface mapping (Harshil Vaniya) • Enhanced the phone number OSINT tool. (Shalomo Agarwarkar)
20/02/2026	• updated medium pii scanner solved errors and resolved false positives (Vrushank Thakkar) • Added readme and error solving(Harshil Vaniya) • Installed Ubuntu and still in progress. Tested a tool from github for email verification. (Shalomo Agarwarkar)
21/02/2026	• studying Maltego and how to create transforms and appropriate usage for our tool (Harshil Vaniya) • created small modules of a medium pii scanner, testing it, error solving, and removing false positives (Vrushank Thakkar) • Arranged the final setting to test the project in Ubuntu.(Shalomo Agarwarkar)
22/02/2026	Holiday (Sunday)
23/02/2026	• added the project to github as a repo and some finer adjustments (Harshil Vaniya) • created linkedin module for pii scanner (Vrushank Thakkar) • Tested the tool successfully in ubuntu linux and was able to execute the task smoothly (Shalomo Agarwarkar)
24/02/2026	• incompatibility between modules error solving (Harshil Vaniya) • error solving for linkedin module for pii scanner (Vrushank Thakkar) • Downloaded and underrated the working of Maltego. (Shalomo Agarwarkar)

25/02/2026	• issues with gitignore and .env files, solving & incompatibilities between features. (Vaniya Harshil) • Downloaded and reviewed the working of Maltego (Shalomo Agarwarkar) • Creating a sample test data for detecting PII from text and image, and measuring accuracy (Vrushank Thakkar)
-------------------	---

Next Week Plan	Solving compatibility issues with GitHub and fully completing the first version
-----------------------	--

OSINT Monitoring & Change Detection Engine

An advanced **modular OSINT reconnaissance and monitoring framework** designed to automatically collect, correlate, verify, track, and **analyze** external **attack surface** data over time.

Built for **"security researchers, SOC teams, bug bounty hunters, and academic research"**.

Overview

This tool performs automated intelligence collection on a target domain and detects meaningful infrastructure or content **changes** over time.

It combines:

- * Subdomain enumeration
- * DNS analysis
- * HTTP probing
- * Change detection
- * Correlation engine
- * Severity scoring
- * Trend analysis
- * Alert generation
- * Email reporting
- * Vulnerability scanning integration

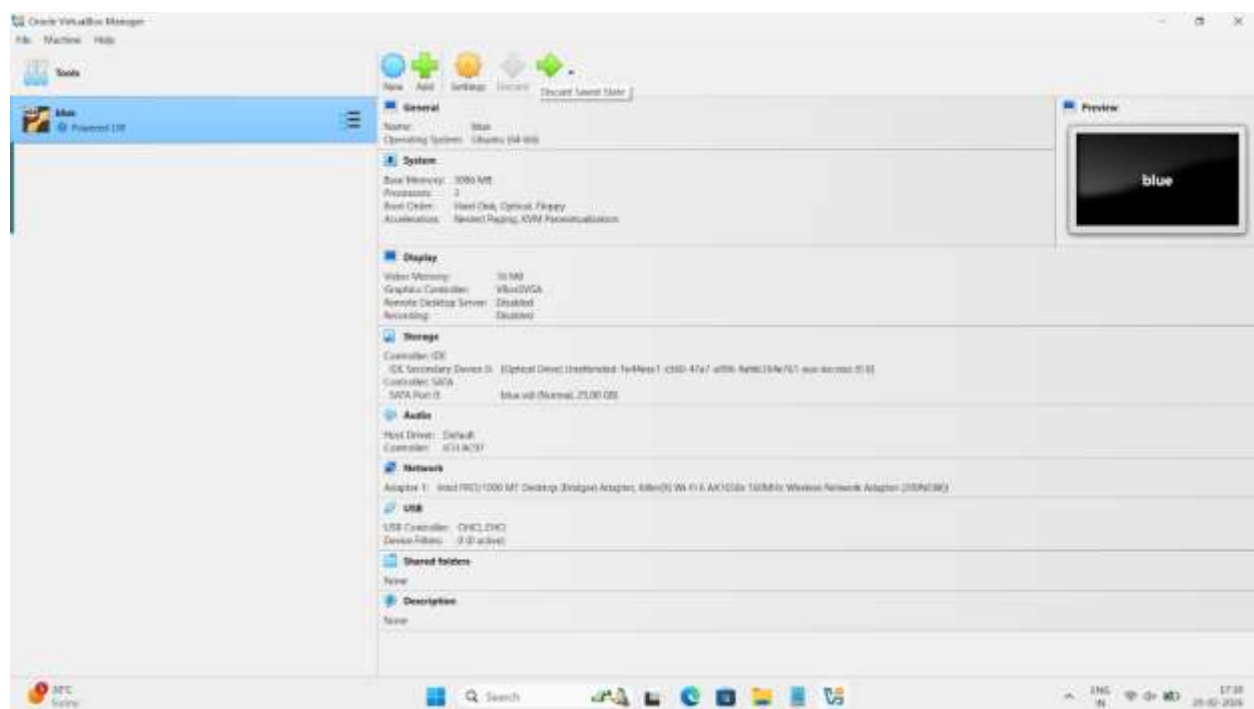

Key features

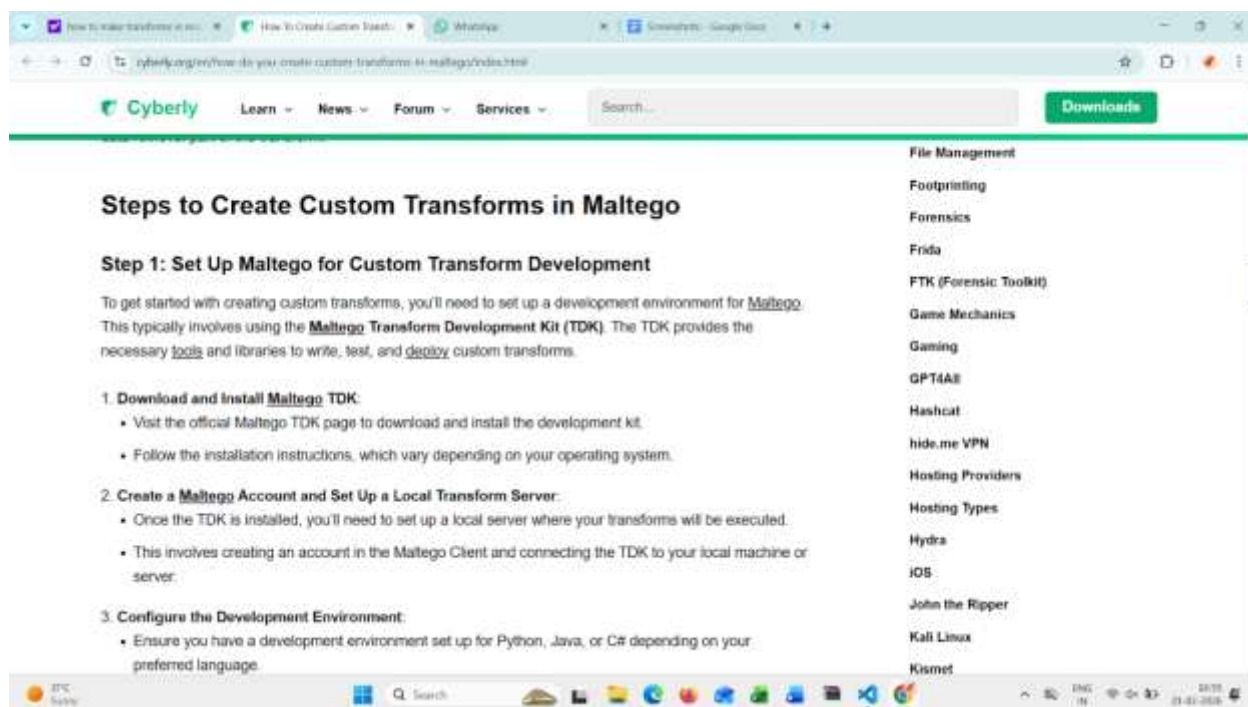

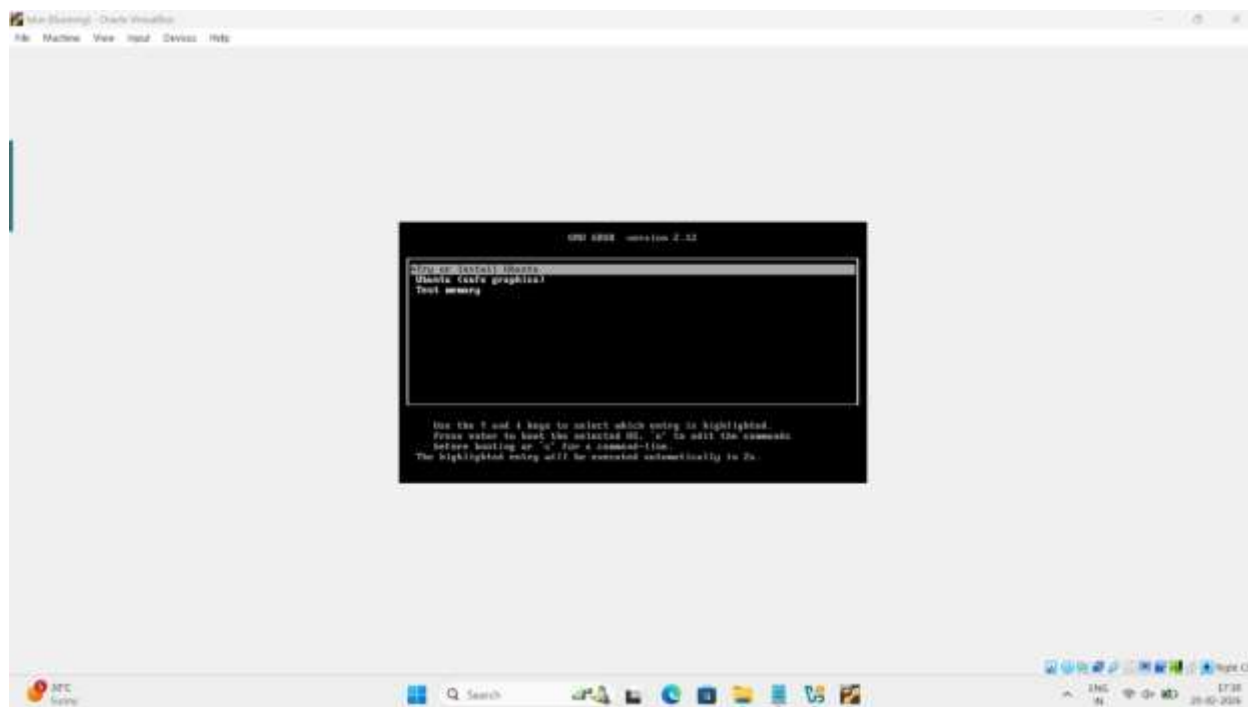

Reconnaissance

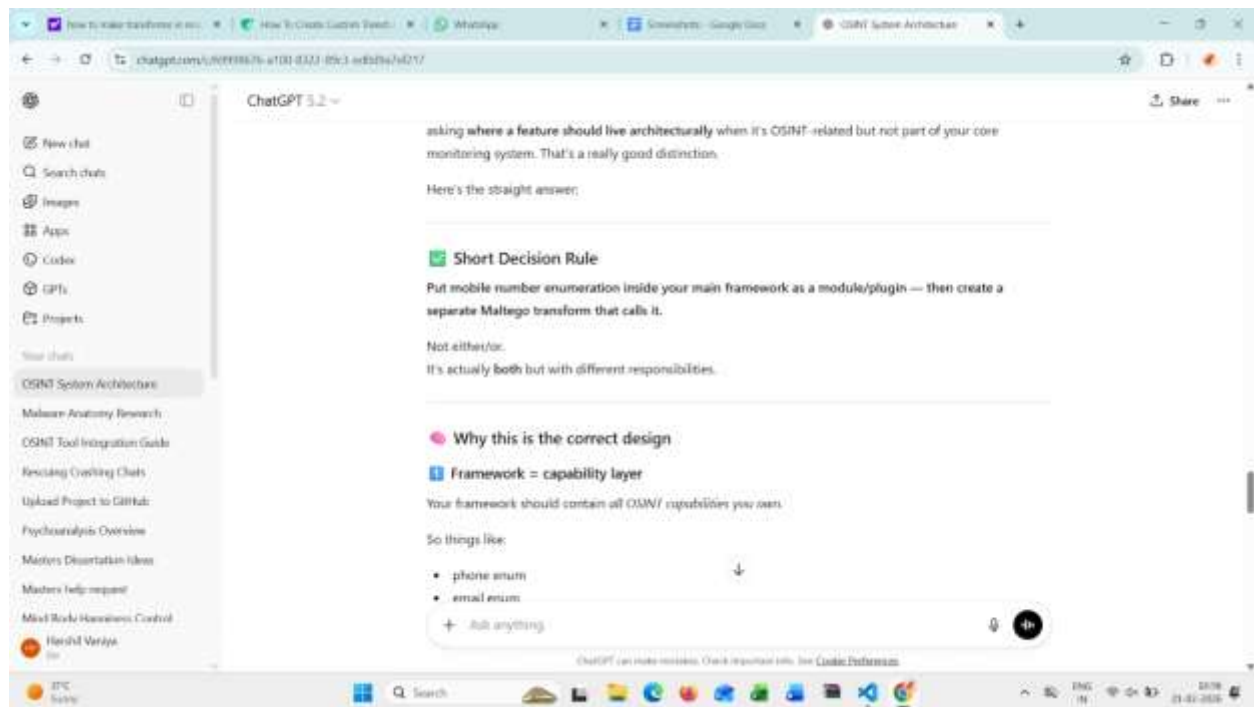

- * Multi-module subdomain discovery
- * Passive & active enumeration
- * Source correlation
- * Confidence scoring

Intelligence layer

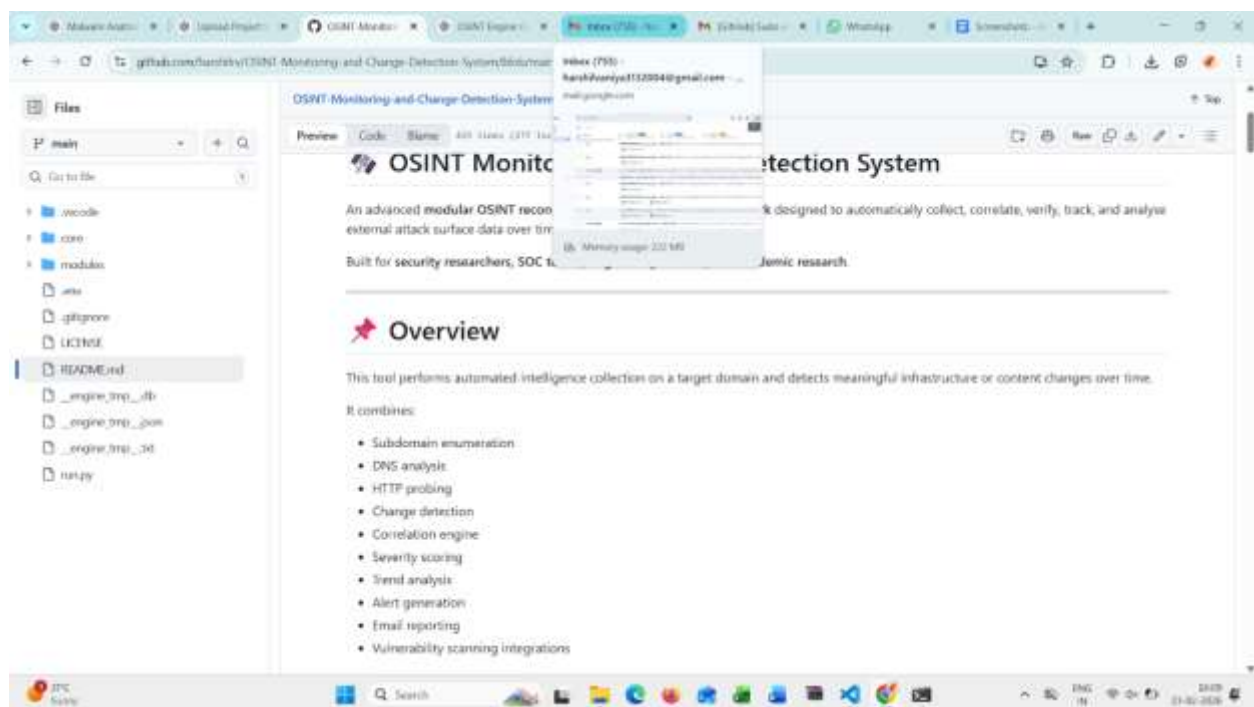

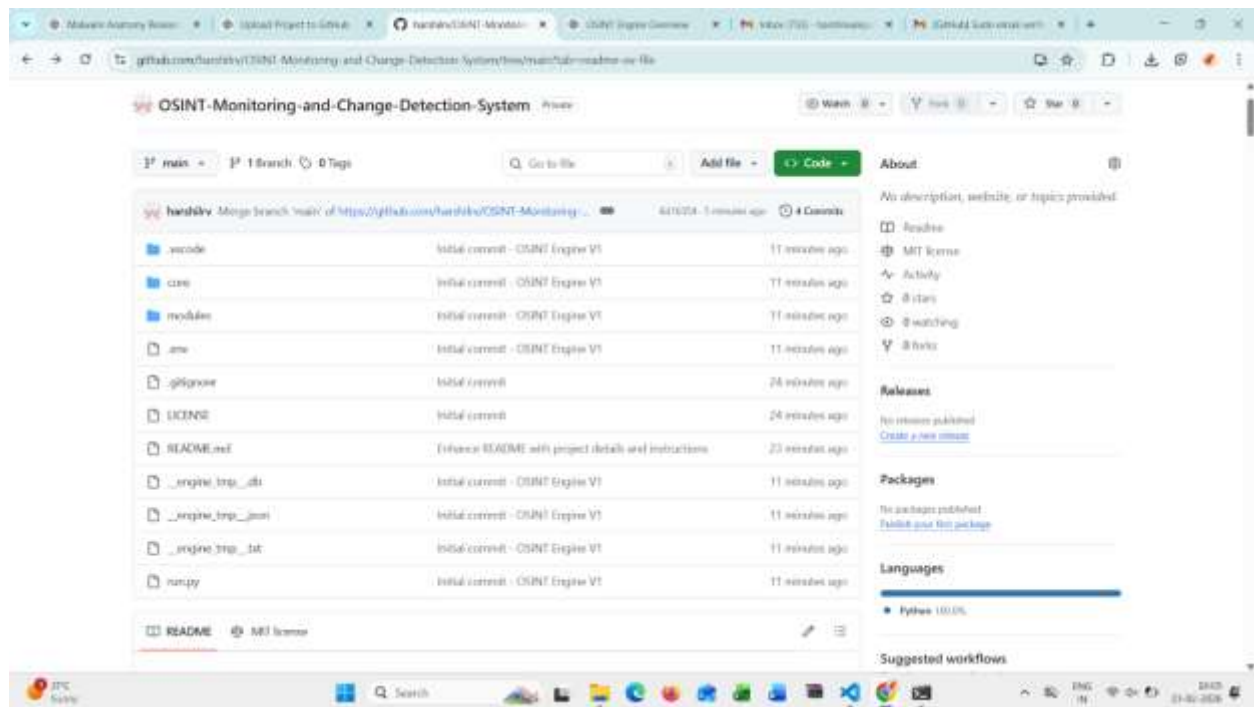

- * DNS resolution validation
